

QUALITY, ENVIRONMENTAL AND HEALTH & SAFETY POLICY

The Quality, Environmental and Health&Safety Policy aims at defining the values, the goals, the commitments and the organizational asset and must be applied together with the laws and regulations in force in the countries where POLYPIPE ITALIA (henceforth "the COMPANY") operates.

The **sustainable development model** of the COMPANY integrates business activities, conducted in an ethical and transparent manner, with environmental protection, health and safety protection, with respect for people, establishing relationship of trust with the parties involved.

The COMPANY operates in the belief that: the manufacture of its products and the way it actually does its work enables the Company to **contribute to environmental and social sustainability**; a process of continuous improvement ensures the strengthening of its **economic performance**, its **reputation, worker health and safety** as well as the **achievement of its environmental and social goals**.
