75-40						
75-50						Х
75-63						Х
90-50						
90-75						Х

#### Fitness for contact with drinking water

This product is approved on the basis of the requirements for hygienic aspects set in the "Regeling materialen en chemicaliën drink- en warm tapwatervoorziening" ("Materials and chemicals in the supply of drinking water and warm tap water Regulation" dated 01-07-2017; published in the Government Gazette).

These hygienic aspects are based on two main criteria. The product shall permanently comply with:

- The product recipe approved during the assessment procedure. This recipe is not to be changed without prior approval by Kiwa according to the Kiwa approval procedure for the hygienic aspects;
- Specific product requirements for the hygienic aspects.

The recipe and specific product requirements are laid down in the for confidentiality reasons undisclosed 'appendix hygienic aspects' to this certificate.

#### MARKING

The solvent cemented fittings shall be marked with the Kiwa®-mark

The minimum required marking on the products shall be:

- Word mark KIWA 👹
- Industrial trade mark
- Material identification: PVC-UH
- Nominal pressure (PN)
- Nominal dimensions of the pipe
- Production period or production code

The realization of the marks is as follows: clearly and indelible.

#### **APPLICATION AND USE**

The products are intended for PVC-piping systems for the transport of drinking water and raw water with a maximum temperature of 45 °C.

#### **RECOMMENDATIONS FOR CUSTOMERS**

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Polypipe Italia S.r.l.
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
